

If Salomon play for free - Pay to MDA:

Some music jobs I want to do without compensation. It can have several causes. Regardless of this, some clients still want some form of compensation when I deliver music in different forms. Since I believe that both parties should feel comfortable in a settlement, here is the opportunity to donate a sum to SMDA (Swedish Magen David Adom, see more info: <https://www.mdais.org/en> or www.smda.se) The amount of the sum, for example, can be half the amount I would normally invoice. (for invoice the sum € 1,000 give € 500 or see on the above pages what exactly a medical device costs). Throughout my adult life, MDA has been strong in my heart. This is one of several areas that I actively support the State of Israel the right to exist, survive and develop.

Below - An ambulance funded with funds from Gothenburg
